

Congrats to the OneCity Health Partners that have Earned Patient-Centered Medical Home (PCMH) Recognition

OneCity Health is proud to recognize that **163 primary care sites** from **47 OneCity Health PPS partners** have earned* the National Committee for Quality Assurance's (NCQA) highest PCMH 2014 Level 3 recognition.

Many partners achieved recognition with OneCity Health's assistance. The journey began in July 2016 and included:

1
Working with PCMH Technical Assistance vendors to assess their practices and develop action plans to transform their practices

2
Attending 5 OneCity Health Learning Collaboratives, covering Population Health Management, Care Management, Care Coordination, and Clinical Quality Improvement and Team-Based Care and Enhanced Access

3
Implementing robust tracking processes and other new workflows to ensure patient care is better

OneCity Health primary care partners are now equipped with the tools and resources to provide high-quality primary care, particularly when patients transition from an Emergency Department visit or a hospital admission.

Congrats to our partners for their hard work to earn PCMH recognition!
